Subject: Eaton Vance Corporation (Election Merger) - Anticipated Adjustment
Option Symbol: EV
New Symbol: MS1
Date:??? (Election Deadline: 02/24/2021)
* * * Update * * *

On October 7, 2020, the Voting Trust, the sole holder of Eaton Vance Corporation (EV) Voting Common Stock, delivered to Eaton Vance a written consent approving the proposed merger with Morgan Stanley (MS).

The Merger: Aggregate Terms

The total amount of cash paid and the total number of shares of Morgan Stanley Common Stock issued in the merger is the same as what would be paid and issued if all EV stockholders were to receive the Mixed Consideration.

The Merger: Individual Share Elections

Within the terms of the Merger, individual EV Shareholders may:

- Elect to receive \$28.25 in cash and 0.5833 of a share of MS Common Stock for each EV Common Share ("Mixed Consideration"). Cash will be paid in lieu of fractional shares. OR,
- Elect to receive cash for each EV Common Share in an amount equal to the value of the sum of \$28.25 plus 0.5833 times the MS volume-weighted average closing price ("VWAP"), calculated as described in the MS/EV Information Statement/Prospectus dated January 29, 2021 ("Prospectus"), and subject to proration ("Cash Consideration"). OR,
- Elect to receive a number of MS Shares for each EV Common Share equal to the sum of 0.5833 Morgan Stanley (MS) Common Shares plus \$28.25 divided by MS VWAP calculated as described in the Prospectus, and subject to proration ("Share Consideration"). Cash will be paid in lieu of fractional shares. OR,
- Register no preference by not making an election ("Non-electing"). Under the terms of the election, shares which are not subject to an effective election will be treated as non-electing shares and converted into the right to receive the Mixed Consideration.

Elections must be submitted to the exchange agent. **The election deadline is 5:00 p.m., Eastern Time, on February 24, 2021.** EV Shareholders must observe all terms and conditions for the election as specified in the Prospectus. **It should be noted that it is unknown if shares may be delivered pursuant to an election under "Notices of Guaranteed Delivery" which allows delivery of EV shares within a certain number of business days of submission of the notices.** In all cases, Call option holders exercising in order to obtain stock for an election must exercise in sufficient time to be able to make valid delivery pursuant to the election procedures.

The Merger Consideration: Prorations

The Cash Consideration and Share Consideration will be subject to automatic adjustment as described in the Prospectus.

Contract Adjustment

Date:	Effective the opening of the business day after the merger is consummated. Contract adjustment is expected to occur in the second quarter of 2021.

Pricing

Until the cash in lieu amount is determined, the underlying price for MS1 will be determined as follows:

$$MS1 = 0.5833 (MS) + 28.25$$

Delayed Settlement

The MS component of the MS1 deliverable will settle through National Securities Clearing Corporation (NSCC). OCC will delay settlement of the cash portion of the MS1 deliverable until the cash in lieu of fractional MS shares amount is determined. Upon determination of the cash in lieu amount, OCC will require Put exercisers and Call assignees to deliver the appropriate cash amount.

Important Exercise Considerations

Holders of EV Call options who wish to make their own elections with respect to EV shares received through exercise (for example, to receive a consideration other than the Non-Electing consideration) bear sole responsibility in determining when to exercise their options to permit a valid election. After the merger is consummated and the contract adjustment described above is effected, adjusted EV options will no longer call for the delivery of EV shares upon exercise. Call option holders will receive upon exercise (and Put holders deliver upon exercise) the non-electing merger consideration (on a per contract basis).

Delivery Settlement and Protect Provisions

Option contracts which are exercised, and physically-settled security futures contracts which mature, will require the settlement of all component securities included in the contract deliverable at the time of the futures contract maturation or option contract exercise, including rights, warrants, or similar instruments. Additional EV entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon physically-settled futures contract maturity or option exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise or futures contract maturity, or other entitlements not associated with the underlying deliverable securities, may preclude holders of long futures contracts from realizing the benefit of such entitlements. For example, if a physically-settled security futures underlying security is the subject of a tender offer, exchange offer, or similar event which expires *before* the futures contract reaches its maturity, the securities due to long futures holders upon maturity *will not* be eligible for participation in the tender/exchange offer. Conversely, if such tender offer, exchange offer or similar event expires *after* the futures contract matures, securities deliverable to long futures holders *will* be eligible for participation in these events.

Except in unusual cases, securities deliverable as a result of equity option exercise or the maturity of physically-settled security futures are settled through National Securities Clearing Corporation (NSCC).

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise or assignment or a physically-settled security future delivery or receipt obligation are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called protect or liability notice procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

Special Risks

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs 2 business days after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (2 business-day settlement) or call option exercise (2 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day, or less-than-2-business-day settlement) may not be available, or may be expensive for buyers of the underlying security.
