Option Symbol: TMX  
New Symbol: RTO1  
Date: ??? (Election Deadline: 10/06/2022)

On October 6, 2022, Shareholders of Terminix Global Holdings, Inc. (TMX) will vote concerning the proposed merger with Rentokil Initial plc.

**The Merger: Aggregate Terms**

The total number of Rentokil Initial American Depositary Shares ("ADSs") to be issued under the terms of the merger agreement will be the product of the exchange ratio of 1.0619 and the total number of issued and outstanding TMX shares immediately prior to the effective time of the merger.

The Rentokil Initial ADSs to be issued in connection with the transaction will be listed on the New York Stock Exchange and are expected to trade under the symbol "RTO."

**The Merger: Individual Share Elections**

Within the terms of the Merger, individual TMX Shareholders may:

- Elect to receive a number of Rentokil Initial plc ADSs equal to: (A) 1.0619 ("exchange ratio") plus (B) the quotient of \$11.00 ("per share cash amount") and the VWAP of Rentokil Initial plc ADSs for the trading day that is two trading days prior to the closing date of the transaction (such trading day, the "measurement day," and such price, the "Rentokil Initial ADS price") calculated as described in the TMX/Rentokil Initial plc Proxy Statement/Prospectus dated September 7, 2022 ("Proxy"). This election is the "Stock Consideration." Cash will be paid in lieu of fractional shares. The Stock Consideration is subject to proration. OR,
- Elect to receive an amount in cash equal to (A) the per share cash amount plus (B) the product of the exchange ratio and the Rentokil Initial ADS price. This election is the "Cash Consideration." The Cash Consideration is subject to proration. OR,
- Register no preference by not making an election. Shares for which a properly completed election form has not been submitted by the election deadline will be deemed to have elected to receive the Stock Consideration.

Elections must be submitted to the exchange agent, Computershare Inc. The election deadline will be at 5:00 p.m. Eastern Time on October 6, 2022. TMX Shareholders must observe all terms and conditions for the election as specified in the Proxy. It should be noted that it is unknown if shares may be delivered pursuant

to an election under "Notices of Guaranteed Delivery" which allows delivery of TMX shares within a certain number of business days of submission of the notices. In all cases, Call option holders exercising in order to obtain stock for an election must exercise in sufficient time to be able to make valid delivery pursuant to the election procedures.

### **Delayed Settlement**

OCC will delay settlement of RTO1 options until the Stock Consideration has been determined.

### **Important Exercise Considerations**

Holders of TMX Call options who wish to make their own elections with respect to TMX shares received through exercise (for example, to receive a consideration other than the Non-Electing consideration) bear sole responsibility in determining when to exercise their options to permit a valid election. After the merger is consummated and the contract adjustment described above is effected, adjusted TMX options will no longer call for the delivery of TMX shares upon exercise. Call option holders will receive upon exercise (and Put holders deliver upon exercise) the non-electing merger consideration (on a per contract basis).

### **Delivery Settlement and Protect Provisions**

Option contracts which are exercised, and physically-settled security futures contracts which mature, will require the settlement of all component securities included in the contract deliverable at the time of the futures contract maturation or option contract exercise, including rights, warrants, or similar instruments. Additional TMX entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon physically-settled futures contract maturity or option

exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise or futures contract maturity, or other entitlements not associated with the underlying deliverable securities, may preclude holders of long futures contracts from realizing the benefit of such entitlements. For example, if a physically-settled security futures underlying security is the subject of a tender offer, exchange offer, or similar event which expires *before* the futures contract reaches its maturity, the securities due to long futures holders upon maturity *will not* be eligible for participation in the tender/exchange offer. Conversely, if such tender offer, exchange offer or similar event expires *after* the futures contract matures, securities deliverable to long futures holders *will* be eligible for participation in these events.

Except in unusual cases, securities deliverable as a result of equity option exercise or the maturity of physically-settled security futures are settled through National Securities Clearing Corporation (NSCC).

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise or assignment or a physically-settled security future delivery or receipt obligation are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called protect or liability notice procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

### **Special Risks**

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs 2 business days after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (2 business-day settlement) or call option exercise (2 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day, or less-than-2-business-day settlement) may not be available, or may be expensive for buyers of the underlying security.
