Subject: ENCORE Bank Holiday Processing

Bank Holiday 10% Margin Call

Monday, October 10, 2022 is a U.S. and Canadian bank holiday. On Friday, October 7, 2022, a margin call will be applied during Start of Day processing equal to 10% of the Risk Charges for each margin tier account.

This bank holiday margin call will result in a collateral requirement in segregated futures accounts equal to the larger of (a) Daily Net Margins plus the 10% bank holiday margin call or (b) Customer Gross Margins. Treatment for all other accounts will not change.

Please note that the margin call increase will be reflected in the Total Requirement number on the Account Summary by CMO Report for activity date 10/7/22. The margin increase will not be reflected on Margin Reports since the call for additional margin is determined after margins are calculated but before collateral excess/deficit and cash settlements are processed.
