**Date:** February 22, 2023

**Subject:** Concert Pharmaceuticals, Inc. – Tender Offer  
Option Symbol: CNCE  
Date: 03/03/2023

Concert Pharmaceuticals, Inc. (CNCE) is the subject of an Offer to Purchase (The “Offer”), as described below:

**Purchaser:** Foliage Merger Sub, Inc., a wholly owned indirect subsidiary of Sun Pharmaceutical Industries Ltd.

**Security to be Purchased:** Concert Pharmaceuticals, Inc. (CNCE) Common Shares

**Quantity:** All Concert Pharmaceuticals, Inc. (CNCE) Common Shares

**Price:** See below

**Expiration:** One minute after 11:59 P.M., New York City time, on March 3, 2023, unless extended

**Depository:** Computershare Trust Company, N.A.

**Guaranty Period:** None

#### **Offer Terms**

Each CNCE Common Share may be tendered for \$8.00 cash plus one non-transferable contingent value right (CVR) per share of Common stock of Concert Pharmaceuticals, Inc. accepted in the offer. The CVR represents the contractual right to receive contingent payments of up to \$3.50 in cash, without interest and any applicable withholding taxes, upon the terms and subject to the conditions set forth in the Offer.

#### **Exercise Considerations**

As indicated below, CNCE options will not be adjusted to reflect the expiration of the Offer and will not call for delivery of CVRs. Call holders who wish to ensure entitlement to the contingent value rights may exercise their options sufficiently in advance of the expiration of the Offer and tender the CNCE shares received in the Offer.

#### **Delivery Settlement and Protect Provisions**

Option contracts which are exercised will require the settlement of all component securities included in the contract deliverable at the time of the option contract exercise, including rights, warrants, or similar instruments. Additional entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon option exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise not associated with the underlying deliverable securities, may preclude call exercisers from realizing the benefit of such entitlements. (See also "Special Risks - Valuation Disparity".) Except in unusual cases, securities deliverable as a result of equity option exercise are settled through National Securities Clearing Corporation ("NSCC").

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise/assignment are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called "protect" or "liability notice" procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

### **Special Risks**

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs 2 business days after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (2 business-day settlement) or call option exercise (2 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day, or less-than-2-business-day settlement) may not be available, or may be expensive for buyers of the underlying security.

### **Possible Contract Adjustment**

The Offer is being made with intention to subsequently effect a merger wherein all remaining CNCE Common Shares will be converted into the right to receive \$8.00 net cash per share plus one non-transferable contingent value right. Interpretation .03 to Article VI, Section 11A, of OCC's By-Laws indicates a contract adjustment for CNCE options would be contemplated when and if the aforementioned intended merger is actually consummated. It is not known how quickly after the expiration of the Offer the intended merger or contract adjustment would be effected. Until such merger is consummated, CNCE option exercise would continue to call for delivery of the underlying security.

**CNCE options will not be adjusted to require delivery of the contingent value right (CVR).**
