THE ALLOCATION OF THE AGGREGATE STRIKE PRICE AMOUNT IS BEING PROVIDED SOLELY FOR THE PURPOSE OF THE INTERFACE BETWEEN OCC AND THE NATIONAL SECURITIES CLEARING CORPORATION (NSCC), AND IS NOT INTENDED TO BE USED FOR ANY OTHER PURPOSE, TRANSACTION OR CUSTOMER ACCOUNT STATEMENTS.

Settlement

The OXSQL and OXSQL components of the OXSQL exercise/assignment activity will continue to settle through National Securities Clearing Corporation (NSCC).

NOTE: The Rights will cease trading on NASDAQ before the opening on June 14, 2023. The Rights will expire on June 14, 2023 at 5:00 p.m. New York City time. The OXSQL component of adjusted option OXSQL will remain part of the OXSQL deliverable until the Rights have expired. Once the expiration of the Rights has been confirmed, the OXSQL component will be removed from the OXSQL deliverable. This change to the deliverables is expected to be effective on June 15, 2023.

Pricing

The underlying price of OXSQL will be determined as follows:

$$\text{OXSQL} = \text{OXSQL} + 0.33 (\text{OXSQL})$$

Further Contract Adjustment

When the Rights expire, adjusted OXSQL options will be further adjusted to no longer call for the delivery of the Rights. **No adjustment will be made to the adjusted contracts to compensate for any in-the-money value the OXSQL rights may have at the time of their expiration.**

Exercise Considerations

The Rights are to be suspended from trading before the open on June 14, 2023 and are expected to expire on June 14, 2023 at 5:00 p.m. New York City time. Shares for which there is no subscription during the Primary Subscription will be offered, by means of the Over-Subscription Privileges. Call option holders who wish to exercise their adjusted options to obtain the Rights for subsequent exercise, sale or other purposes bear sole responsibility for determining when to exercise their options as well as complying with all terms and conditions of the Rights offering applicable to Rights exercise or delivery.

Delivery Settlement and Protect Provisions

Option contracts which are exercised, will require the settlement of all component securities included in the contract deliverable at the time of the option contract exercise, including rights, warrants, or similar instruments. Additional entitlements (such as due bills, eligibility to participate in tender offers, elections,

etc.) may also automatically attach to securities deliverable upon option exercise. Conversely, exercised calls may be unable to realize the benefit of securities or entitlements **not** associated to the contract deliverable at the time of the option exercise or Option contract maturity.

Except in unusual cases, securities deliverable as a result of equity option exercises and or Option contract maturity are settled through National Securities Clearing Corporation (NSCC).

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise/assignment are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights offering, election, or similar event. These rules are generally called protect or liability notice procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such protect provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

Special Risks

Call Holders/ Put Writers

As a result of the adjustment described above, the Rights will be part of the adjusted OXSQ1 options deliverable, but only until the Rights expire, after which time they will be dropped from the deliverable of the option contract. When the Rights expire and are dropped from the deliverable of the option contract, any value the Rights may have had will no longer be associated with the option contract. As a result, holders of in-the-money calls may be disadvantaged unless they exercise in sufficient time to obtain the Rights. After the Rights expire and are dropped from the deliverable of the option contract, holders of short put positions who are assigned will be required to purchase OXSQ stock *whose value may have been substantially diminished by the Rights distribution.*

Uncovered Short Obligations

Holders of assigned calls or exercised puts who do not possess the underlying security at the time of assignment or exercise are subject to special risk. Suspension of trading of the underlying security, inability to borrow the security, or similar events may preclude the possibility of effecting timely delivery, thereby exposing persons with an obligation to deliver to liability if timely delivery is not effected (See Delivery Settlement and Protect Provisions above).
