Subject: VMware, Inc. (Election Merger) - Anticipated Adjustment
Option Symbol: VMW
New Symbol: AVGO1
Date: ??? (Election Deadline: 10/23/2023)
*** Update ***

On November 4, 2022, Shareholders of VMware, Inc. (VMW) approved the proposed merger with Broadcom Inc. (AVGO).

The Merger: Aggregate Terms

The aggregate cash consideration and the aggregate stock consideration to be paid in the transaction each represents 50% of the total consideration to be paid in the transaction.

The Merger: Individual Share Elections

Within the terms of the Merger, individual VMW Shareholders may:

- Elect to receive 0.252 Broadcom Inc. (AVGO) Common Shares ("Stock Consideration"). The Stock Consideration is subject to proration. Cash will be paid in lieu of fractional shares. OR,
- Elect to receive \$142.50 in cash ("Cash Consideration"). The Cash Consideration is subject to proration. OR,
- Register no preference by not making an election. Shares for which a properly completed election form has not been submitted by the election deadline will be considered non-electing shares and converted into the right to receive the Stock Consideration or the Cash Consideration according to the allocation and proration procedures described in the VMW/AVGO Proxy Statement/Prospectus dated October 3, 2022 ("Proxy"). The consideration received by shareholders not making an election is the "Non-Electing Consideration".

Elections must be submitted to the exchange agent. The election deadline is 5:00p.m. Eastern Time on October 23, 2023. VMW Shareholders must observe all terms and conditions for the election as specified in the Proxy. It should be noted that it is unknown if shares may be delivered pursuant to an election under "Notices of Guaranteed Delivery" which allows delivery of VMW shares within a certain number of business days of submission of the notices. In all cases, Call option holders exercising in order to obtain stock for an election must exercise in sufficient time to be able to make valid delivery pursuant to the election procedures.

The Merger Consideration: Prorations

The Stock Consideration and the Cash Consideration will be subject to proration as described in the Proxy.

Contract Adjustment

Date:	Effective the opening of the business day after the merger is consummated. Contract adjustment is expected to occur on or about October 30, 2023.
Option Symbol:	VMW changes to AVGO1
Strike Divisor:	1
Contract Multiplier:	1
New Multiplier:	100 (e.g., a premium or strike price extensions, 1.00 yields \$100)
New Deliverable Per Contract:	<p>The deliverable for adjusted VMW options will be BASED ON THE MERGER CONSIDERATION WHICH ACCRUES TO NON-ELECTING VMW SHAREHOLDERS (stated in terms of a current 100-Share deliverable).</p> <p>100 x Non-Electing Consideration</p> <p>Note: Once determined the cash in lieu of fractional share portion of the option deliverable remains fixed and does not vary with price changes of any security.</p>
CUSIP:	AVGO: 11135F101

Delayed Settlement

OCC will delay settlement of AVGO1 options until the non-electing consideration has been determined.

Important Exercise Considerations

Holders of VMW Call options who wish to make their own elections with respect to VMW shares received through exercise (for example, to receive a consideration other than the Non-Electing consideration) bear sole responsibility in determining when to exercise their options to permit a valid election. After the merger is consummated and the contract adjustment described above is effected, adjusted VMW options will no longer call for the delivery of VMW shares upon exercise. Call option holders will receive upon exercise (and Put holders deliver upon exercise) the non-electing merger consideration (on a per contract basis).

Delivery Settlement and Protect Provisions

Option contracts which are exercised, and physically-settled security futures contracts which mature, will require the settlement of all component securities included in the contract deliverable at the time of the futures contract maturation or option contract exercise, including rights, warrants, or similar instruments. Additional VMW entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon physically-settled futures contract maturity or option exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise or futures contract maturity, or other entitlements not associated with the underlying deliverable securities, may preclude holders of long futures contracts from realizing the benefit of such entitlements. For example, if a physically-settled security futures underlying security is the subject of a tender offer, exchange offer, or similar

event which expires *before* the futures contract reaches its maturity, the securities due to long futures holders upon maturity *will not* be eligible for participation in the tender/exchange offer. Conversely, if such tender offer, exchange offer or similar event expires *after* the futures contract matures, securities deliverable to long futures holders *will* be eligible for participation in these events.

Except in unusual cases, securities deliverable as a result of equity option exercise or the maturity of physically-settled security futures are settled through National Securities Clearing Corporation (NSCC).

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise or assignment or a physically-settled security future delivery or receipt obligation are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called protect or liability notice procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

Special Risks

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs 2 business days after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (2 business-day settlement) or call option exercise (2 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day, or less-than-2-business-day settlement) may not be available, or may be expensive for buyers of the underlying security.
