**July 4, 2024**

CME will be open for trading for certain products on Thursday, July 4, 2024. All trades will be processed with a trade date of July 5, 2024. Since July 4, 2024 is an OCC holiday and a U.S. bank holiday, OCC will process a holiday margin increase on accounts holding CME positions on Wednesday, July 3, 2024. To cover potential market moves for those products open for trading, the holiday margin call will result in an increase in collateral requirements in accounts with open positions on these exchanges equal to 10% of the risk charges for applicable products. For segregated futures accounts, the margin call is the amount by which (i) the Daily Net Margin requirement plus 10% of the sum of expected shortfall and stress test risk for applicable products exceeds (ii) the SPAN requirement.

Please note that this increase is not reflected on the Account Summary by CMO Report or the Cash Settlement Breakdown Report. Firms drafted as a result of the holiday margin increase will be notified Wednesday morning. Clearing Members are responsible for requesting cash back via ENCORE after depositing alternative forms of collateral.
