Contract Adjustment

Effective January 17, 2025, existing ICDIQ options are adjusted to no longer call for the delivery of ICDIQ shares upon exercise.

An ICDIQ put assignee (or call exercise) will pay this amount on the exercise settlement date. Settlement will take place through OCC's cash settlement system on the business day after exercise.

Since ICDIQ options are American-style, they are exercisable at the election of the holder. Expiration processing for ICDIQ options will take place in the normal fashion, including automatic exercise thresholds.

Acceleration of Expirations

Pursuant to OCC Rule 807, equity stock option contracts whose deliverables are adjusted to call for cash-only delivery will be subject to an acceleration of the expiration dates for outstanding option series. (See OCC Information Memo 23707) Additionally, the exercise by exception (ex by ex) threshold for expiring series will be \$.01 in all account types.

All series of Independence Contract Drilling, Inc. options whose expiration dates are after 02-21-25 will have their expiration dates advanced to 02-21-25. Expiration dates occurring before February 21, 2025 (e.g., Flex options) will remain unchanged.

All Independence Contract Drilling, Inc. options will utilize a \$.01 exercise threshold.

Existing Expiration: All months

New expiration date: 02-21-25

Existing American-style Independence Contract Drilling, Inc. options remain exercisable at the option of the holder prior to their expiration. Exercised options will continue to settle in one business day.
