#56696

Date: June 12, 2025

Subject: Adjusted Jacobs Solutions Inc. - Further Adjustment/Determination of Deliverable/Cash in Lieu Settlement
Adjusted Option Symbol: J1

Adjusted Jacobs Solutions Inc. options (adjusted options symbol J1) were adjusted on September 30, 2024 and May 16, 2025 (See OCC Information Memos #55272 and #56561). The new deliverable became 1) 100 Jacobs Solutions Inc. (J) Common Shares, 2) Approximately 106 Amentum Holdings, Inc. (AMTM) Common Shares, and 3) Cash in lieu of approximately 0.0835 fractional AMTM Common Shares. Settlement of the AMTM and cash components of J1 options exercise/assignment activity were subject to delayed settlement.

OCC has been informed that the final distribution ratio is 0.060835 AMTM shares per J share held.

OCC has been informed that a price of \$19.38197 per whole AMTM share will be used to determine the cash in lieu amount. Accordingly, the cash in lieu amount is:

$$0.0835 \times \$19.38197 = \$1.62 \text{ per J1 Contract}$$

Now that the exchange ratio and the exact cash in lieu amount have been determined, OCC will require Put exercisers and Call assignees, during the period of May 16, 2025 through June 12, 2025, to deliver the appropriate AMTM share and cash amount.

The cash in lieu of fractional share portion of the option deliverable remains fixed and does not vary with price changes of any security.

Adjusted J1 options will be further adjusted as follows:

**New Deliverable
Per Contract:**

- 1) 100 Jacobs Solutions Inc. (J) Common Shares
- 2) 106 Amentum Holdings, Inc. (AMTM) Common Shares
- 2) \$1.62 Cash

**Settlement
Allocation:**

J: 80%
AMTM: 20%

Strike Prices: Unchanged

CUSIPs: J: 46982L108
AMTM: 023939101

Multiplier: 100 (i.e., a premium of 1.50 yields \$150)

Settlement

The J component has settled through National Security Clearing Corporation (NSCC). The AMTM component of the J1 exercise/assignment activity, which was delayed from May 16, 2025 through June 11, 2025, will settle through National Security Clearing Corporation (NSCC). The \$1.62 cash amount will be settled by OCC.

Pricing

The underlying price for J1 will be determined as follows:

$$J1 = J + 1.06 (\text{AMTM}) + 0.0162$$

For example, if J closes at 127.06 and AMTM closes at 22.39, the J1 price would be calculated as follows:

$$J1 = 127.06 + 1.06 (22.39) + 0.0162 = 150.81$$

Disclaimer

This Information Memo provides an unofficial summary of the terms of corporate events affecting listed options or futures prepared for the convenience of market participants. OCC accepts no responsibility for the accuracy or completeness of the summary, particularly for information which may be relevant to investment decisions. Option or futures investors should independently ascertain and evaluate all information concerning this corporate event(s).

The determination to adjust options and the nature of any adjustment is made by OCC pursuant to OCC By-Laws, Article VI, Sections 11 and 11A. The determination to adjust futures and the nature of any adjustment is made by OCC pursuant to OCC By-Laws, Article XII, Sections 3, 4, or 4A, as applicable. For both options and futures, each adjustment decision is made on a case by case basis. Adjustment decisions are based on information available at the time and are subject to change as additional information becomes available or if there are material changes to the terms of the corporate event(s) occasioning the adjustment.
