Subject: Medtronic plc - Partial Exchange Offer
Option Symbols: MDT/2MDT
Date: 10/09/2026

Medtronic plc (MDT) is the subject of a partial Offer to Exchange (The "Offer"), as described below:

Purchaser: Medtronic plc (MDT)

Security to be Purchased: Medtronic plc (MDT) Ordinary Shares

Quantity: MDT will exchange a number of MDT shares up to an aggregate of 225,361,295 Common Shares of MiniMed Group, Inc. (MMED). The number of MDT shares is to be determined, as described in the MDT Prospectus dated September 14, 2026 ("Prospectus").

Offer Terms: Approximately \$107.53 of value of MMED Common Shares in exchange for \$100 in value of MDT Ordinary Shares, as described in the Prospectus.

Note: The ratio of MMED shares received is subject to an upper limit of 4.5939 MMED Common Shares for each MDT Ordinary Share accepted in this exchange offer.

Expiration: 12:00 Midnight, New York City time, on October 9, 2026, unless extended

Depository: Equiniti Trust Company, LLC

Guaranty Period*: Two NYSE Trading Days

*Under the terms of this Offer, shares not immediately available may nevertheless be tendered provided they are tendered under a properly executed "Notice of Guaranteed Delivery", and valid delivery is subsequently made within the specified "guaranty period". In all cases it is the sole responsibility of the person tendering to comply with all terms and conditions of the Offer.

Delivery Settlement and Protect Provisions

Option contracts which are exercised will require the settlement of all component securities included in the contract deliverable at the time of the option contract exercise, including rights, warrants, or similar

instruments. Additional entitlements (such as due bills, eligibility to participate in tender offers, elections, etc.) may also automatically attach to securities deliverable upon option exercise. Conversely, securities not included in the contract deliverable at the time of the option exercise not associated with the underlying deliverable securities, may preclude call exercisers from realizing the benefit of such entitlements. (See also "Special Risks - Valuation Disparity".) Except in unusual cases, securities deliverable as a result of equity option exercise are settled through National Securities Clearing Corporation ("NSCC").

Rights and obligations of Members with respect to securities settling at NSCC as a result of an option exercise/assignment are governed by the rules of NSCC. NSCC has its own rules which enable purchasers of securities to protect themselves for value which may be lost if timely delivery is not made to them of securities subject to specific deadlines, such as the expiration of a tender offer, rights subscription, election, or similar event. These rules are generally called "protect" or "liability notice" procedures, and are intended to protect purchasers by binding the delivering parties to liability if such value is lost because timely delivery is not effected. Purchasers of securities must observe the rules and procedures of NSCC to avail themselves of such "protect" provisions of NSCC. Questions regarding these provisions should be addressed to NSCC.

Special Risks

Writers of call options and holders of short positions in physically-settled security futures at maturity who are uncovered with respect to deliverable securities subject to deadlines or cut-off times (such as expirations of tender offers, rights subscriptions, elections, or similar events) should be aware of a risk associated with the timing of their possible assignments or physically-settled security futures delivery obligations: Equity option exercise settlement and settlement of physically-settled security futures delivery obligations normally occurs the business day after the option exercise date or the security-futures maturity date. An uncovered call writer or uncovered short futures holder who has an obligation to deliver, and who waits until after assignment or futures maturity to effect purchase of the underlying security, may not be able to effect timely delivery by a regular-way purchase (1 business-day settlement) or call option exercise (1 business-day settlement after exercise). Such uncovered writer or short futures holder may nevertheless be subject to liability under the protect provisions of NSCC (see above) with respect to his delivery obligation, because he cannot make timely delivery. Additionally, Cash Markets (same-day) may not be available, or may be expensive for buyers of the underlying security.

Possible Delayed Settlement

After the Offer expires, it is possible Medtronic plc (MDT) Ordinary Shares may begin to trade on a when-distributed basis on the NYSE. Should this occur, OCC may delay settlement of MDT/2MDT options exercises until a settlement date for when-distributed trades is determined.

Adjustment Policy for Tenders

OCC Rule 2803(c)(3)(ii) states the following: The Corporation will not ordinarily make an adjustment to reflect a tender offer or exchange offer to the holders of the underlying security, whether such offer is made by the issuer of the underlying security or by a third person or whether the offer is for cash, securities or other property. This Rule will apply without regard to whether the price of the underlying security may be favorably or adversely affected by the offer or whether the offer may be deemed to be "coercive." Outstanding options ordinarily will be adjusted to reflect a merger, consolidation or similar event that becomes effective following the completion of a tender offer or exchange offer as described in Rule 2803(d)(2).

Accordingly, MDT/2MDT options **will not be adjusted** to reflect the expiration of the Offer. OCC Rule 2803 indicates an adjustment would be considered **when and if** a subsequent merger, consolidation, or similar event following the tender is **actually consummated**. Until such an event occurs, MDT Ordinary shares would still exist, trade, and be deliverable in settlement of MDT/2MDT option exercises.
